A.F.C. Wimbledon

For all your **seating needs**

We are a leading UK manufacturer and supplier of complete seating packages for a wide variety of stadiums and arenas across the UK and around the world.

We work directly with clubs and organisations developing strong and lasting relationships as well as working alongside architects and construction companies when designing new builds or redevelopments of stadiums and arenas.

We have a solid and proven range of affordable General Admission Seating, VIP Seating, Removable Seating, Rail Seating, Podium Seating as well as offering a range of Beam Seating with our partner company.

We offer free site visits to assist you with your seating needs and we have a no minimum order policy on all our products and components allowing you to purchase complete seats or individual plastics or metalwork for spares and occasional replacements as and when required.

Offering a diverse portfolio of products enables customers to select from a range of styles and specifications catering for all budgets and applications.

Please visit our website for more information:

Safe Standing Seating

Colosseum Safe Standing Seat p 18

Fansit Safe Standing Seat p 19

Safe standing areas, also known as rail seating, are transforming stadium experiences. With rail safety barriers in place between each row or section, these help to prevent overcrowding, maintain individual spaces for spectators, and reduce the risk of accidents. The rails provide something for fans to hold onto while standing, enhancing stability and safety.

Safe standing areas blend traditional fan culture with modern safety standards, creating a vibrant and secure environment for spectators.

Spectator safety

Colosseum Safe Standing Seat

The Colosseum Rail Seat builds on the General Admission Colosseum seat so you have the ability to blend in your current seating and introduce safe standing areas without having to change styles.

Project Management

Effective project management at Arena Stadia Seating ensures timely delivery, optimal resource use, and high-quality installations for a seamless fan experience.

Project management at Arena Stadia Seating is essential for coordinating complex installations, minimising risks, and ensuring that every seating project is completed on time, within budget, and to the highest standards of quality and safety. It allows us to manage logistics, handle custom requirements, and deliver innovative solutions that enhance the overall stadium experience for spectators and stakeholders alike.

Installation

At Arena Stadia Seating, expert project management is crucial for executing precise and efficient installations, ensuring every seat is perfectly positioned for optimal comfort, visibility, and safety. Our dedicated team coordinates every aspect of the installation process, from initial planning to final inspection, guaranteeing that projects are completed on schedule, within budget, and with the highest standards of craftsmanship.

Bespoke Products

At Arena Stadia Seating, our project management expertise ensures that every bespoke seating solution is meticulously designed, crafted, and installed to meet your unique specifications. We manage the entire process, from concept to completion, ensuring that custom products not only meet your aesthetic and functional requirements but also adhere to strict quality and safety standards, providing a tailored experience that enhances any venue.

After Sales Care & Maintenance

At Arena Stadia Seating, our commitment to after-sales support and maintenance is crucial for ensuring the long-term performance and durability of your seating solutions. We provide ongoing maintenance services and timely support to address any issues, helping to extend the lifespan of your investment, maintain safety standards, and ensure a consistently high-quality experience for all users.
